DETAILED ACTION

Claims 1-9 are under consideration in this application.

Claims 11-25 remain held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restrictions

The requirement is still deemed sound and proper and is hereby made final.

Again, this application has been examined to the extent readable and expanded to include compounds wherein R¹ is C₃₋₇ cycloalkyl)methyl or aryl, R² represents -CONR^bR^c, -NR^bR^c, -NR^dCONR^bR^c wherein R^b and R^c when taken together with the nitrogen atom to which they are attached, represent (optionally substituted) azetidine, pyrrolidine or piperidine, R³ represents (optionally substituted) aryl and R^d as set forth in claim 1, exclusively. All additional heteroaryls and heterocycles pertain to nonelected subject matter.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Again, the expression C₃₋₇ cycloalkyl)methyl is indefinite because it is not clear whether methyl is a substituent on the cycloalkyl ring. The term methyl is a terminal group and not a linking group. Applicants state that the term methyl is understood to be a terminal group. Yet, examples 40, 86, 147, 173 and 220 all show a "methylene" group.

Art Unit: 1625

The claims measure the invention. United Carbon Co. v. Binney & Smith., 55 USPQ 381 at 384, col. 1, end of 1st paragraph, Supreme Court of the United States (1942).

The U.S. Court of Claims held to this standard in Lockheed Aircraft Corp. v. United States, 193 USPQ 449, “Claims measure invention and resolution of invention must be based on what is claimed”.

The C.C.P.A. in 1978 held “that invention is the subject matter defined by the claims submitted by the applicant. We have consistently held that no applicant should have limitations of the specification read into a claim where no express statement of the limitation is included in the claim”: In re Priest, 199 USPQ 11, at 15.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and if amended to the subject matter indicated as being examinable, *supra*.

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and if rewritten directed solely to the elected compounds.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 1625

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
